Support for the day to day management of Cows Milk

Like other mammals, to produce milk a dairy cow must keep giving birth, usually to a calf each year. If nature was allowed to take its course—calves would suckle from their mother for several months, even up to a year. Mother cows, like most mammals, have a strong maternal bond. One study found ...

Cattle is a word for certain mammals that belong to the genus *Bos*. Cattle may be cows, bulls, oxen, or calves. Cattle are the most common type of large domesticated hoofed animals. They are a prominent modern member of the subfamily Bovinae.. Cattle are large grazing animals with two-toed or cloven hooves and a four-chambered stomach. This stomach is an adaptation to help digest tough grasses.
